- ii) Whilst it has frequently been associated with cooling towers it is also common in showers, whirlpool baths, spray taps and virtually any water system capable of generating airborne droplets which can be inhaled.
- iii) The advice in the Code of Practice will be followed on site. Specific actions will include removal of all shower heads and sterilising them prior to the commencement of each school year. Hot and cold water systems will be flushed through to remove any stagnant water from the system and storage tanks will be checked for any growth

of algae. This will be undertaken by the premises officer or the Council's Property Services Department.

All visits to sites which involve overnight stays must be assessed and approved by the LA.

- iii) Any teacher wishing to participate in an off-site visit must follow the school policy and must submit a request for permission together with a risk assessment carried out by a competent person to the Headteacher at least 10 working days before the visit is due to take place (Refer to Cof P 11).

3.18 Personal Protective Equipment

- i) The requirements of the Personal Protective equipment at Work Regulations 1992 and the Guidance on Regulations issued by the HSE (L25) will be followed.
- ii) The circumstances where these regulations apply are fairly limited within school premises e.g. Science & Technology, but where risk assessment has identified that any personal protective equipment is necessary it will be supplied by the school. Employees must then ensure that it is worn at appropriate times.
- iii) Abuse of any PPE supplied is a direct offence under Section 8 of the Health and Safety at Work Act 1974.

3.19 Safety Representatives/Safety Committee/Consultation

- iii) Employers also have obligations under the Health and Safety (Information for Employees) Regulations 1989
- iv) The Governing Body will fulfil these obligations through the Headteacher who will involve all staff including representatives in the development of health and safety. This policy details the methods of involvement including accompanied inspections, safety committee meetings, development of risk assessments, disseminating information and assisting in developing training needs.

 - b) The Headteacher will ensure that when contractors are on site that their activities and vehicular movements do not compromise the safety of pedestrians.
 - c) The Headteacher will ensure that deliveries are not made during break or lunch times or for 15 minutes prior to the opening and after the close of school in order to avoid peak pupil movement times.
