Key Knowledge

When people use the word FEMALE they are often talking about girls or women, when they use the word MALE they are often talking about boys or men.

- Teats and udder and explain they are only found on females so that the female can feed her babies
- As with humans, male and female animals also have different private parts and this is another way we can tell them apart

- Most parts of our bodies are the same.
- Human bodies are all unique and that not all Female or Male bodies look exactly the same

- to make sure a surprise work, we don't tell anyone for a while, as you did with the box, but then everyone will find out.
- it is harmful to keep secrets when they hurt or harm ourselves or others – these are not healthy secrets to keep. We must always report secrets like this to adults we trust.

the whole of our body belongs to us and we can say 'no' or 'stop' if we don't want someone to touch us.
