

# Around the World

1. <u>Vocabulary</u>	
Globe	A picture of a planet drawn on a sphere.
Continent	Any of the world's expanse of land.
Ocean	A large area of sea.
2.	
Habitat	The natural home to an animal.
Antarctica	The south polar region.
Sahara Desert	Arid land with little or no vegetation.
3.	
Temperature	The degree of heat.
Landscape	All the visible features of an area of land.
Adaption	Become adjusted to new surroundings.
Environment	Where something lives.

4. Fold a piece of paper in two and collage one side as the Sahara Desert and the other as Antarctica.

5. Choose an animal in either Antarctica or the Sahara Desert and find out how it has adapted to its surroundings.
