## Cursive Handwriting Used at Glenmere Primary School

At Glenmere, we have chosen to teach our pupils the cursive handwriting technique as it is believed to help with joining up writing as well as spelling.

Please view the "Cursive Handwriting Examples to Print" document below, which contains the alphabet in the cursive style.

You can print this document to teach your children cursive handwriting, as well as letting them trace the individual letters.

You can also buy this font to use on your home computer at <http://www.cursivewriting.org/joinitc12-joined-fonts.html> where a single, home user licence is a one off cost of £14.95.

By purchasing the font, this would allow you to create documents where your children could trace over words to quicken their learning of the cursive handwriting technique.
