

Year 1
Spring 1

Magical Mapping

Geography

The children will become familiar with how to negotiate a simple map and plot simple objects on to these. Starting in the classroom, then the school and towards the end our local area. They will become familiar with physical and human features of their local area by walking around and recording this on a simple map.

The will find whereabouts they live within the United Kingdom as well as within the world.

Art and Design Technology

The children will recognise patterns in the environment. Practise creating different patterns. Make their own maps.

PE

Multi skills running & dance.

Basketball morning

Computing

Maze
Explorers
Lego builders
- Purple Mash

Science - Materials

The children will learn about materials and their properties. They will partake in a material hunt around the school and their local area. They will have opportunities to investigate the material properties by investigations and find out which material will be best suited to different jobs.

Music

Children will look at body percussion. Explore the sounds they can make just using their body's and create their own short composition.

British Values

Perseverance
Overcoming obstacles
Individual Liberty

Religious Education

Judaism - The children will discuss the main beliefs and practices of the Jewish people.

Core learning - English

Contemporary fiction - stories reflecting children's own experience. (2 weeks)
